

BY TELEGRAPH
TO THE FREEMAN.

6 O'CLOCK, A. M.

New York, August 23.

Geo. Miles of Petersburg, Va., and John Garrett Guthrie of Richmond, agents of Tobacco houses, who have been in Baltimore, Philadelphia and New York on a collecting tour, and obtained about \$170,000 have been arrested, and confined in Fort Lafayette. The funds recovered are principally in bonds, acceptances, night drafts and Virginia paper money. A large number of letters were found upon them, addressed to persons South.

Thomas J. Carson and William M. Peggam of Baltimore, and W. J. Kelley have been arrested. They were recently at Harrisburg, and had come from South of the Potomac.

On Kelley was found \$400,000 in money in notes of the Confederate States Bank. Various bills of sale dated at Richmond for pork and other articles were concealed in the pockets inside his shirt.

New York, Aug. 23. Gen. Heintzleman has suffered a relapse from the wound on his arm. It threatens inflammation.

Captain Joseph Dickinson has been appointed an assistant Adjutant General, to be attached to General Hooker's staff.

Congressman Potter's committee reported today to the Secretary of War the names of 12 disloyal clerks, and not a disaffected army officer. The same committee report to the Secretary of the Treasury the names of 51 disloyal beyond a doubt, and 10 suspected; to the Secretary of the Interior 20 disloyal, and 7 suspected.

The Herald's dispatch says that General Butler is detailed by General Wool to the command of the volunteer forces at Fort Monroe. He will occupy that position some time before returning to Massachusetts to raise a new division. The stage coach to Leonardtown from this city was interrupted by a small detachment of our troops by order of Gen. Porter. A close examination of the passengers and baggage was the result of disclosing a quantity of correspondence designed for the rebels—much of it written in mysterious language. None had the signatures of the writers. Two of the party were arrested.

A letter from on board the U. S. steamer Crusader, announces that the Mississippi had captured two small privateers and driven back two steamers to Mobile.

Washington, Aug. 23. The continued improvement of the troops in all respects is a subject for congratulation, resulting as it does mainly from strict discipline. The line of the upper Potomac is now well guarded. At the latest reliable accounts, Gen. Banks was still resting on the Monocacy.

The administration of the oath of allegiance as presented to Congress, was a matter of interest to the Clerks in the Bureau of the Auditor of the Treasury, attached to the Post Office Department this morning.

Rolla, Mo., Aug. 22. Accounts from Springfield are to the effect that from 6000 to 10,000 of McCulloch's army had left for the North. A small force had reached Lebanon, on the Rolla road, and were engaged in making reprisals and committing depredations on Union men.

About 700 of the exiles from Springfield have joined Col. Boyd's Regiment.

Thousands of Union men have been obliged to abandon their homes in the southwest, leaving their property at the mercy of the rebels. There is much distress among these people, large numbers having neither money nor provisions.

The baggage train from the Federal army, which was brought from Springfield by Major Sturges, is said to be worth a million and a half dollars.

The passage of the rebel army North will enable our forces when they move back to Springfield to cut off its communication with, and retreat to Arkansas, and thus completely enclose it in the Western Counties of Missouri.

New York, Aug. 23. The Commercial's special Washington dispatch says Mr. Boileau of Harper's Ferry, recently arrested, has been released by order of Gen. Banks.

Col. Baker of California is to raise a brigade of 5000 men.

Fredrick, Md., Aug. 23. The correspondent of the Associated Press, with Gen. Banks' division, writes as follows: The health of the army is good, and the hospitals have few tenants. There is great improvement since leaving Sandy Hook.

Russell of the London Times took the cars at Elliott's Mills, on Tuesday morning, and proceeded towards Sandy Hook, apparently for the purpose of visiting the whole line of the Potomac defenses. Some curiosity was felt to catch a glimpse of him, and remarks not delicately complimentary were made by soldiers who had read his letters.

Private Farbind, of the New York 9th Regiment committed suicide yesterday in a fit of insanity.

Post Office Notice.

The Public are hereby notified that stamped envelopes of the new style, just issued from the Post Office Department, have been received at this office; that I am now ready to exchange envelopes and stamps of the old style for an equivalent amount of the old issue, during a period of six days from the date of this notice, and after the expiration of that period envelopes and stamps of the old issue will not be received in payment of postage at this office. The smaller Post Office in this neighborhood, which may not be in the ordinary course of business, be able to obtain a supply of the new issue of envelopes and stamps from the Department, can exchange the old stamps and stamps on hand, for new ones, at this office, for one month to come.

By order of the Post Office Department,
JAMES G. FRENCH, Postmaster.
Montpelier, August 19, 1861.

Attention, Green Mountain Boys!

Your Country has made an urgent call for your services. Two Regiments of Volunteers are to be raised in Vermont. A CANADIAN REMEDY

For Constipation, Irregularity and Debu of the Digestive Organs, Inducing Headache, Lassitude, Nervousness, General Prostration of the Mind and Body, Paralysis, &c.

A moment's reflection ought to convince a sensible man of the folly and danger of constantly dosing with Cathartic Medicines. The practice is pernicious and suicidal. An experienced forty years has taught me that the constantly increasing evils of indigestion are fearfully aggravated by the too free use of Cathartics. The American people are fast becoming a nation of dyspeptics by the official mode of life. Dr. Colby's Cathartics increase the irritability, and prostrate the strength of the digestive organs.

The Pills now offered are especially designed to allay this irritability, and thus to give the digestive and strengthening the vital powers. It is a gentle laxative. They are anodyne, tonic and laxative. They are so mild and invigorating that one is not reminded by any disagreeable effects that he has taken medicine. Business Men, Students, Professional Men, Females, and all persons leading a confined or sedentary life, should try them.

The undersigned Physicians, cheerfully certify to the high professional standing of Dr. Colby of Stanstead, one of the oldest and best Physicians, and to the excellent qualities of his "Anti-Costive and Tonic Pills," which we have used in our practice, and highly approve.

CORRECTIVE

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilarating and strengthening the vital powers. It is a powerful restorative, and restores the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly as to act in perfect accordance with the laws of nature, it is the best and the weakest stomach and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects and it is never followed by lassitude or depression of spirits. It is composed entirely of vegetable and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a cordial has long been felt to be a desideratum in the medical world. Both by the the only skilled in medical science and also by all who have suffered from debility; to it no medical student or physician can afford to be without it. It is also perfectly exhilarating in its effects and it is never followed by lassitude or depression of spirits. It is composed entirely of vegetable and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a cordial has long been felt to be a desideratum in the medical world. Both by the the only skilled in medical science and also by all who have suffered from debility; to it no medical student or physician can afford to be without it. It is a powerful restorative, and restores the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly as to act in perfect accordance with the laws of nature, it is the best and the weakest stomach and tone up the digestive organs, and allay all nervous and other irritation.
